

The social-vocational inclusion center of the youth exposed at risks

A project financed by the RO10-CORAL programme, a program financed by the Grants SEE 2009-2014 and run by the Social Development Romanian Fund PET 079

Opinions on the activities from the students which participated on the project

- Ursea Melisa , class XI B: “From my point of view, this project is the best way to learn new things, to discover new information, that will help us in the future. All the teachers are getting involved for helping us to develop our knowledge.”
- Catalin Stoica, class XII G: “This project seems to me interesting enough, because it gives us the possibility to learn new things and to meet new people.”
- Braitarus Maria, class XII E: “This project it's very good and useful for us, young students. My favorite activities are the ones that are held by our teachers. The best part of this project and also what I like about this project is the fact that the activities make us work as a team and get us all involved.”
- Stan Adrian, class XII G: “In my opinion, this project is well designed to make us learn new things, not just about school, but also about our social life and it prepares us for many unpleasant situation that we might have throughout our life. All of the teachers that are involved in this project really do make an excellent job. I can't choose a particular activity that I liked the most, every single one of them were quite fun to participate at and every activity had it's own educational purpose which, I can say that it has been reached.”
- Ilie Cornelia, class XII H: I love this project because it gives us the possibility to learn new things. My favorite thing about this project was the camp and I also liked “**Social Skills**” and “School Counseling and Orientation” Activities, where we made some psychological tests and I had a lot of fun doing them. This project gave me the opportunity to discover how my teachers were outside the classroom and I also discovered two special teachers Ivașcu Natalia and Nicolae Ana-Maria.
- Panait Giuliano, class XI I: “The project is very beautiful, from each teacher I learn something. My favorite activities from this project were the ones from the camp and the mentoring activities made with mentor from the Apollo center”.
